

Questions to Ask Your Doctor When You're Pregnant

Presented by Marillac St. Vincent Family Services' Project Hope: MSV's signature program for pregnant and parenting teens and young mothers, providing prenatal support, doula birthing assistance & parent education on Chicago's west side since 1982.

Should I be taking prenatal vitamins? Why?

What activities or food should I avoid?

How much weight should I expect to gain?

Is it safe to have sex during pregnancy?

Are my symptoms normal? When should I call a doctor or go to the hospital?

Does my current work or school environment pose any risks?

What over the counter or prescription medication is safe for me to use while pregnant?

Am I at high-risk for any complications during pregnancy, because of my current state of health or health history? Should I be screened for anything?

What do I do when my water breaks?

Who will be delivering my baby?

Where will I have my baby?

How much will the delivery cost?

Will I have to have a C-section? How does a C-section work?
